### My Book of

# 

If your child is starting to learn addition, then this book will build on that foundation. Use this book to help your child learn how to add the numbers 1 and 2 to the numbers 1 through 29.

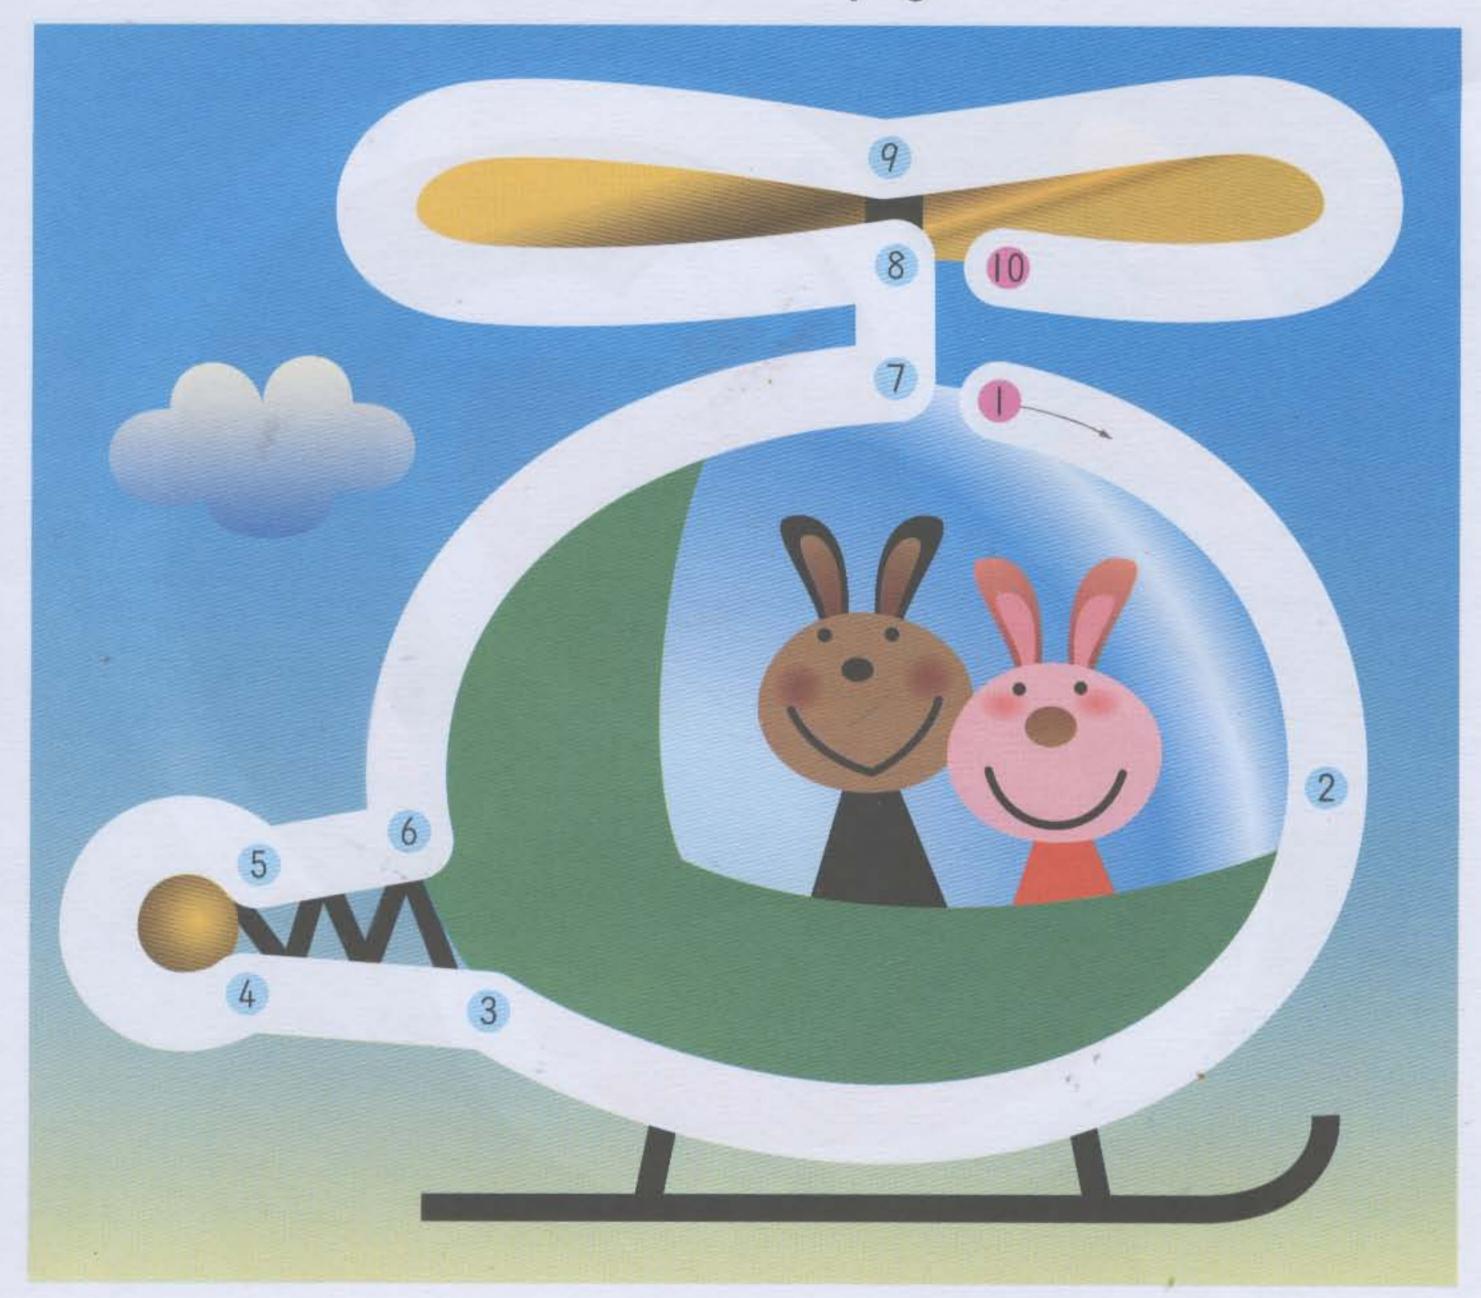

#### Saying and Writing Numbers

I to 10

To parents

Write your child's name and the date in the boxes above. Starting with this page, your child will practice reciting and writing numbers. Acquiring these skills will facilitate an understanding of addition. When your child completes each exercise, please offer lots of praise.

Draw a line from 1 to 10 in order while saying each number.

Say each number aloud as you trace it.

# Adding I 1+1 to 4+1

Name

#### To parents

Learning to add 1 is a basic step towards successfully understanding addition. Starting with this page, your child will repeatedly practice formulas that include the number 1 in order to gain solid calculation abilities. Some pages contain a number chart to give children a hint that the answers are included in the chart.

$$(1) + | =$$

$$(2) 2 + 1 =$$

$$(3) 3 + 1 =$$

#### To parents

In order to understand the concept of adding 2, it is important that your child master number recitation and the ability to add 1 first. If he or she is having difficulty, please return to the section on adding 1. Starting with this page, your child will gain solid calculation abilities by repeatedly practicing addition formulas that include the number 2.

Add the numbers below.

$$(1)$$
 | + 2 =

$$(11)$$
 | + 2 =

### Review

### Adding I and 2

Name

Date

To parents

Starting with this page, your child will review addition with the numbers 1 and 2. If he or she is having difficulty, please return to previous pages for further practice. If your child encounters no difficulty solving these problems, it means he or she thoroughly understands the concept of adding 1 and 2 to other numbers. Please offer lots of praise.
