

This collection by envision and styled by the Australian team of Jamie Carroll Hair and Beauty, was influenced by romance and the glamour of old Hollywood with a hint of pop culture, which is getting worn by today's 21st century fashion conscience male and female.

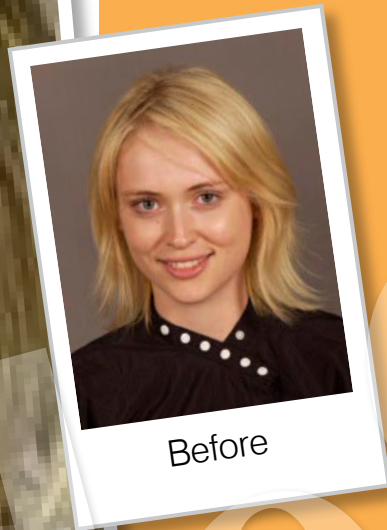

Designers such as Valentino, Galliano, Torrento and Christian Lacroix have all had an impact on the "eminence" collection (which means elegant and aristocratic)

Focusing on strong angled lines, particular with our bangs / fringes - mid length tapering with exterior waterfall layers backed up by colours that shine with glamour, and under tones of orange, pink, and green, that draws our eyes attention.

Falling short of being vivid, though strong enough to stand out.

The techniques for the cuts colours and long hair are quick, simple to use with an elegance not seen in previous collections.
