## ABOUT KALAS SPORTSWEAR

KALAS Sportswear является крупнейшим производителем и дистрибьютором велосипедной одежды не только в Чехии но в средней и северной Европе. Кроме велосипедной одежды изготавливаем также с индивидуальным дизайном на триатлон, ориентирование, легкая атлетика, хоккей, футбол и другие виды спорта.

### Одевает тех наилучших

Джерси с логотипом KALAS одевают чемпионы мира и олимпийских игр, члены национальных команд, множество профессиональных команд и тысячи любителей велоспорта в более чем 20 странах мира. Производство велоформы на заказ пользуется все большей популярностью и самыми известными нашими клиентами являются Škoda Auto, ČEZ, Budějovický Budvar, Bosch, Hypoteční banka, ČSOB, Subaru ČR или Hewlett Packard.

### Технология & ноу-хау

Мы единственные в Чехии, кто кроит материалы на специальном катре. Печать дизайна производится на плоттере японской фирмы Mimaki i с использованием итальянских красок на швейцарскую сублимационную бумагу. При переносе напечатанного дизайна с бумаги на материал используется сублимационные итальянские станки Monti Antonio. Но даже самая наилучшая технология не может сравниться с золотыми руками наших швей, которые шьют одежду KALAS на нашей фабрике в городе Табор.

### Мы всем сердцем за велоспорт

Хотя на KALAS Sportswear сегодня работает более 200 человек, все равно мы считаемся семейной фирмой и за все отвечаем своим именем. Безкомпромиссно придерживаемся качества продукции, велоформу шьем в Чехии из функциональных материалов с Италии и Швейцарии с использованием современной технологии.

# MATERIALS AND PADS

## Devan

Weft-knitted polyester material with two-layer structure made from lightweight fabrics developed for functional cycle-wear.

## Flanders

Very pleasant material used for long-sleeve insulated jerseys with the reverse side that is brushed.

## Lycra

The Lycra fabrics offer stretch and recovery power designed to help any cyclist to move and perform at their best, while feeling comfortable. This textile material is a perfect combination of lightweight, breathability, close-fit, shape retention and freedom of movement.

## Mavar

Developed for sports activities the functional Mavar fabric contains elastic fibres that ensure comfort and freedom of movement.

## SPEED LADY

## ZOOM X WOMEN

Multilevel elastic pad of the ELASTIC INTERFACE TECHNOLOGY® series made in an attractive design and developed to provide a great degree of protection and comfort.

**Important features:**

- elastic material from microfiber and polyester fibres for maximum breathability
- dual density construction guarantees a great degree of protection and comfort
- bacteriostatic material
- extremely soft side wings providing freedom of movement and excellent fit
- perforated foam ensuring increased ventilation and quick dry
- specially designed perineal area to preserve blood circulation and to protect the sciatic nerve
