SPORTSWEAR

ABOUT KALAS SPORTSWEAR

KALAS Sportswear является крупнейшим производителем и дистрибьютором велосипедной одежды не только в Чехии но в средней и северной Европе. Кроме велосипедной одежды изготавливаем также с индивидуальным дизайном на триатлон, ориентирование, легкая атлетика, хоккей, футбол и другие виды спорта.

Одевает тех наилучших

Джерси с логотипом KALAS одевают чемпионы мира и олимпийских игр, члены национальных команд, множество профессиональных команд и тысячи любителей велоспорта в более чем 20 странах мира. Производство велоформы на заказ пользуется все большей популярностью и самыми известными нашими клиентами являются Škoda Auto, ČEZ, Budějovický Budvar, Bosch, Hypoteční banka, ČSOB, Subaru ČR или Hewlett Packard.

Технология & ноу-хау

Мы единственные в Чехии, кто кроит материалы на специальном катре. Печать дизайна производится на плоттере японской фирмы Mimaki i с использованием итальянских красок на швейцарскую сублимационную бумагу. При переносе напечатанного дизайна с бумаги на материал используется сублимационные итальянские станки Monti Antonio. Но даже самая наилучшая технология не может сравниться с золотыми руками наших швей, которые шьют одежду KALAS на нашей фабрике в городе Табор.

Мы всем сердцем за велоспорт

Хотя на KALAS Sportswear сегодня работает более 200 человек, все равно мы считаемся семейной фирмой и за все отвечаем своим именем. Безкомпромиссно придерживаемся качества продукции, велоформу шьем в Чехии из функциональных материалов с Италии и Швейцарии с использованием современной технологии.

MATERIALS AND PADS

Spinn

Weft-knitted polyester material developed for highly functional cycle wear. Two-layer structure made from lightweight fabrics with the reverse side from special microfiber that effectively transfers the sweat to the top layer. The Spinn material is very breathable and provides a comfortable fit.

Flanders

Very pleasant material used for long-sleeve insulated jerseys with the reverse side that is brushed.

Microfiber

This material is very breathable and at the same time provides reliable protection against wind and rain. Fashionable apparels in microfibres have graceful flow, silk-like feel and are extremely comfortable. Microfiber clothing is not sensitive, retaining its positive qualities after washing or cleaning.

W&W MISSION FLOW

W&W WINTER FLOW

Lycra Power

The Lycra Power fabrics offer even better stretch and recovery power designed to help any cyclist to move and perform at their best, while feeling comfortable. This textile material is a perfect combination of light-weight, breathability, close-fit, shape retention and freedom of movement. In addition, it provides muscle support during bumps and thus prevents early exhaustion.

Roubaix

Revolutionary stretchy material containing LYCRA fibers developed for high quality sportswear with UV protection, while keeping your body dry and warm. This fabric has a special antibacterial treatment.

Revolutional

This new revolutionary stretch fabric is made from polyamide micro fibre and Lycra XtraLIFE. This textile material is a perfect combination of light-weight, breathability, close-fit, shape retention and freedom of movement. In addition, it provides great muscle compression and a flattering look without sacrificing anything in comfort.

ENDURANCE 3D WOMEN

The Endurance 3D pad has been created in a close collaboration with the performance specialist of cycling pads Elastic Interface. It is an ideal choice for those who are looking for an unequalled performing pad designed for long-distance riding.

Important features:

- 3D anatomic shape achieved thanks to three components joined together for enhanced fit.
- Perforated layer for enhanced air flow and ventilation throughout the whole pad.
- Wide central area with extra density, specifically shaped to fit female anatomy.
- Ultrahigh density inserts of 120/kgm³ specifically shaped and designed to cushion main pressure points.
- EIT CARBONIUM FLASH material has special channeled structure for enhanced air flow and ventilation.

ZOOM X WOMEN

Multilevel elastic pad of the ELASTIC INTERFACE TECHNOLOGY® series made in an attractive design and developed to provide a great degree of protection and comfort.

Important features:

- elastic material from microfiber and polyester fibres for maximum breathability
- dual density construction guarantees a great degree of protection and comfort
- bacteriostatic material
- extremely soft side wings providing freedom of movement and excellent fit
- perforated foam ensuring increased ventilation and quick dry
- specially designed perineal area to preserve blood circulation and to protect the sciatic nerve
